Letter from The President

Jennifer Sweat

Hello ACA family,

Fall is here. Crisp cool mornings, all the leaves are changing, and all the holidays are right around the corner. The bowling event at the end of September was a blast! It was great to spend time with all the ACA members who attended. If you were not able to come, you missed a great event. Please see the pictures on the website or on Facebook.

October is Breast Cancer Awareness month. We have all been affected or know someone who has been affected by this horrible disease. Early detection is key in fighting this disease. Please make sure you are taking care of yourself and that you are getting your mammograms regularly. Men, you should check yourselves regularly too.

WELCOME to all the new members that have joined the ACA. We are grateful you have decided to join the family. If anyone wants to be part of an ACA committee, or is willing to head a committee, please let me know. We are actively looking for someone to chair the events committee. If you have any interest, please reach out.

Save the date **04/13/2022 for the ACA Annual Educational Conference**. This will be 100 years of the ACA. Please stay tuned for additional details. If you want to sponsor this event, reach out to Jesse Parker. The ACA annual seminar will be held at Villa Christina. Follow us on the ACA website and our LinkedIn and Facebook pages for the latest news from ACA.

If you know of an upcoming seminar, please let us know. We would love to share it with everyone.

Yours truly,
Jennifer Sweat
President
Atlanta Claims Association

OCTOBER *Breast* **CANCER** AWARENESS MONTH

OTHER THAN SKIN CANCER,
BREAST CANCER IS THE

**most
common
cancer**

AMONG AMERICAN WOMEN.
MAMMOGRAMS ARE THE BEST
WAY TO FIND BREAST CANCER
EARLY.

SYMPTOMS

- Any change in the size or the shape of the breast.
- Pain in any area of the breast.
- Nipple discharge other than breast milk (including blood).
- Skin of the breast, areola, or nipple is scaly, red or swollen.

MYTHS

MYTH #1: Finding a lump in your breast means you have breast cancer

MYTH #2: Only women with a family history of breast cancer are at risk

MYTH #3: A mammogram or X-ray of the breast can cause breast cancer to spread

MYTH #4: Use of underarm antiperspirants and deodorants cause breast cancer

**40,000
women &
430 men**

**DIE OF BREAST CANCER
EACH YEAR IN THE
UNITED STATES.**

FAST FACTS

- Each year in the United States, more than 245,000 women get breast cancer. Men also get breast cancer, but it is not very common. Less than 1% of breast cancers occur in men.
- Most breast cancers are found in women who are 50 years old or older, but breast cancer also affects younger women. About 10% of all new cases of breast cancer in the United States are found in women younger than 45 years of age.
